+ INFO

Creative, technical professional in North Dallas specializing in digital design and development. I enjoy working in a forward thinking, collaborative environment from conceptualization and strategy to design and development. Hardworking with a multidisciplinary skill-set, I am seeking a challenging environment with growth potential.

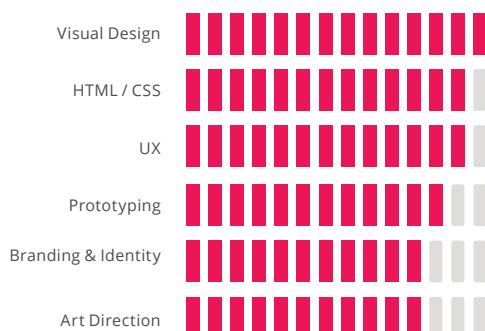

EMPLOYMENT

Present – Jul 15	UI Developer/UX Designer Hybrid Veriten	Designs and builds user interface components and responsive layouts using HTML5, CSS3, Bootstrap and jQuery. Translates wireframes and hi-fidelity designs to code.
	UX Designer Veriten	Designed enterprise-level systems, including responsive web, iOS and Android platforms. Responsible for sketching, wireframing, low-fidelity prototypes and high-fidelity design comps. Managed the design team's workflow under the creative direction of the UX Design Director and worked closely with the development team to ensure designs were correctly implemented.
Jul 15 – Mar 15	UX Designer Apptricity	Designed financial enterprise software, with an emphasis on improving the current functionality and developing a new interface for a product refresh. Responsible for sketching, wireframing, low-fidelity prototypes and high-fidelity design comps using Balsamiq, Axure, and Photoshop.
Mar 15 – Nov 11	Web Designer T. D. Jakes Ministries	Designed a variety of web page layouts, responsive web, mobile applications and social media marketing. Developed websites and managed content using HTML, CSS and Content Management Systems.
Oct 11 – Dec 08	Graphic Designer Freeman	Produced print signage for large scale trade shows following the show branding and themes specified. Signage included banners, pop-up signs, table tents and exhibit structures.
	Product Support Specialist Freeman	Collaborated with Account Executives and corporate clients to design and create graphics for Digital Signage product used on large scale events, trade shows and conferences. Worked with the client to ensure that the Digital Signage designs were in agreement with the overall show branding and themes. Set up and managed the product onsite to ensure that it worked properly throughout the duration of the event. Clients included Disney, Microsoft, Exxon Mobil and Girl Scouts of America.
